

MUHAMMAD TAYYAB SOHAIL

Computer Science Undergraduate | Full-Stack and Artificial Intelligence Developer

Faisalabad, Pakistan • +92 335 7704662 • tayyabsohail838@gmail.com • [linkedin.com/in/tayyabsohail838](https://www.linkedin.com/in/tayyabsohail838) • tayyabsohailportfolio.netlify.app

PERSONAL STATEMENT

Computer Science undergraduate skilled in Python and machine learning, with strong teamwork and communication skills, passionate about building artificial intelligence solutions with an entrepreneurial mindset.

EDUCATION

Bachelor of Science, Computer Science — Government College University, Faisalabad 2024 – 2028
Currently in fifth semester; coursework includes software engineering, information security, and data structures.

ACADEMIC EXPERIENCE

Software Development Life Cycle Project — Government College University, Faisalabad

- Built a software application by applying Waterfall, Agile, and V-Model methodologies across the full software development life cycle.

Technical Team Member, Computational Society — Government College University, Faisalabad

- Built the frontend interface and an artificial intelligence system that scanned attendees for entry at a university event.
- Teamwork:** Learned to coordinate effectively with team members to plan tasks and deliver the project on schedule.
- Creativity:** Learned to design innovative, practical solutions while solving technical challenges during university projects.
- Communication:** Learned to communicate clearly with teammates and supervisors throughout university project work.

PROFESSIONAL EXPERIENCE

AI First Developer Intern — Cybergen 2026 – Present

- AI First Development: Driving end-to-end AI solutions, from initial web applications to integrated, intelligent systems.
- Software Design & QA: Testing and designing systems using accurate frameworks.

Full-Stack Developer — Freelance / Independent Practice 2026

- Led an independent freelance practice, acquiring and delivering end-to-end web development projects for local clients.

Artificial Intelligence and Machine Learning Intern — Built in Kohinoor 2024 – 2025

- Prepared tabular data and built classification models under senior developer guidance during a three-month internship.

Frontend Web Development Intern — WapeXp Institute of Information Technology 2025

- Built responsive web interfaces using modern development practices during a four-month internship.

HimmatKaar — Launchpad Cohort One Training, NIC Faisalabad 2026 – Present

- Completing a structured three-month program focused on professional and technical skill development.

KEY PROJECTS

Habit Tracker Web App — Task for Qubit Dynamics 2026

- Built a habit tracking web application as a client task for Qubit Dynamics, a software house, receiving a 10/10 quality rating.

Government College University Admission Assistant Chatbot 2026

- Built a conversational assistant supporting three providers and nine models, with a knowledge base covering eligibility and scholarships.

Semantic Email Analysis Framework 2025

- Processed over forty thousand text samples to build a context-aware threat classifier using Machine Learning and Deep Learning models, reaching over ninety-five percent testing accuracy.

Customer Attrition Prediction Pipeline 2025

- Trained a churn prediction model and deployed it as a live web application to support customer retention decisions.

ADDITIONAL

Skills: Full-Stack Development, Machine Learning, Python, Data Analysis, Applied Cryptography, Problem Solving, Communication, Teamwork, Adaptability, Entrepreneurial Mindset

Certifications: Artificial Intelligence and Machine Learning Professional Certification, National Vocational and Technical Training Commission, Government of Pakistan; Microsoft Certified: Azure Artificial Intelligence Fundamentals

Interests: Business Startups, Technology, Sports, Events, Games

Language: English, Urdu
